

Architectural Stone Decor core values

Architectural Stone Decor is a company of unique individuals, bonded by passion for art, history and design. Defining beauty, sophistication and elegance is a task we take upon ourselves to enrich and infuse our clients' homes.

To ensure satisfaction and remarkable quality, all of our products are cut from living limestone rocks, carved out of the very stone that once erected great empires along the Mediterranean.

Making our client's dreams a realization is our measure of success; it's the essence of our company. There is no limit to a client's vision as far as size or intricacy in carving detail. We will custom carve a piece to construct the perfect work of art. We believe in our client's designs, as we believe in our product, and will allot the necessary effort to seamlessly tie the two together.

Architectural Stone Decor derives inspiration from the past and in turn we hope to inspire our clients. The Archaeological record is filled with stone works of art from ancient civilizations that have stood the hands of time. We feel that your home should one day be part of the Archaeological record and we believe we can make that possible with our product.
